

ASX Announcement | 29 November 2023  
Hexagon Energy Materials Limited (ASX: HXG)

## Hexagon launches on Diolog

***Hexagon is pleased to announce the use of Diolog to enhance communication between investors and executive management.***

Hexagon Energy Materials Limited (ASX: HXG) ('Hexagon' or 'the Company') is excited to announce a collaboration with Diolog, a leading two-way retail investor communication technology provider.

Hexagon recognises the importance of providing accessible information for all shareholders and believes that Diolog will facilitate communication between investors and the executive management team.

Current and prospective investors can now use the Diolog mobile application to submit questions and access publicly available information (including answers to questions, videos, interviews and ASX announcements) at any time and from anywhere.

Hexagon encourages all shareholders to direct queries through the Diolog app.

### How to download the Diolog mobile application:

1. Find "Diolog" in your respective App Store or Google Play Store by scanning the QR code or by visiting this link: <https://apps.apple.com/au/app/diolog/id1618217361>
2. Create your Diolog account and ensure notifications are turned on.
3. Add "Hexagon Energy Materials" to your Company list.

CEO Stephen Hall commented: *"I am delighted to announce Hexagon's collaboration with Diolog and encourage existing and potential investors to take the opportunity that this provides to learn more about Hexagon and to keep up-to-date as we progress the WAH<sub>2</sub> low-emissions ammonia project and the Company's other opportunities."*

## Ends

*This announcement has been authorised by Board of Directors of Hexagon Energy Materials.*

### About Hexagon Energy Materials Limited

Hexagon Energy Materials Limited (ASX: HXG) is an Australian company focused on Future Energy project development and Future Energy materials exploration and project development.

Hexagon is developing a business to deliver decarbonised Hydrogen (blue Ammonia) into export and domestic markets at scale, via its WAH<sub>2</sub> Project.

Hexagon's plan is to use renewable energy in clean Hydrogen production to the greatest extent possible in its projects, transitioning from blue to green Hydrogen production on a commercial basis, over time.

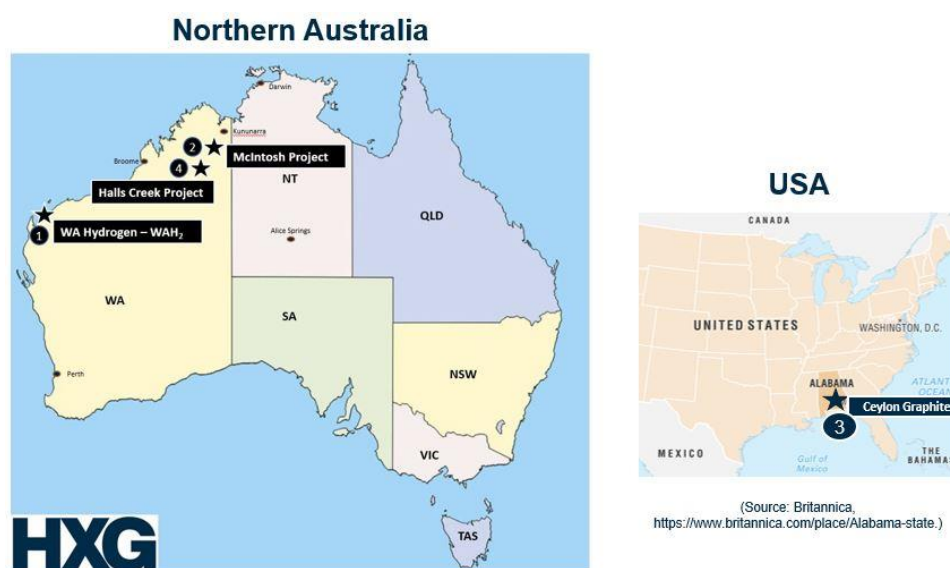

Hexagon 100% owns the McIntosh Nickel-Copper-PGE and Graphite project in Western Australia and the Halls Creek Gold and Base metals project in WA.

Hexagon's overarching goal for 2023 is to secure and leverage technical and commercial alliances by commodity across its project portfolio whilst maintaining a core focus on Northern Australian Future Energy and Future Energy Materials project development, in-house.
